

R. Bibler Custom Builders Inc. was established in 2004 and has grown to become one of the premier builders in Southwest Michigan. Randall Bibler, President and owner has been building and remodeling homes and businesses since 1974.

Having come from a business owner background, Randall Bibler understands that success is achieved one client at a time. Our business will thrive or fail based on how our clients feel they have been treated during the course of their project. We manage the project and have complete confidence in our ability to exceed our clients' expectations. However, projects are more than labor and material. They also involve complex interactions between people. Replacing a defective 2' x 4" is easy. Re-establishing trust with a construction associate or client is not so easy. For that reason, we take a very hard look at the scope of work that the project requires, but we also look at the talent pool we direct to accomplish that work. Our business depends on our clients' view of the work we do and the type of people we are.

"All of our business is the direct result of client referral".

Project Associates

Our continuing strong relationship with the finest architects, designers, suppliers, subcontractors and building inspectors within the Southwest Michigan area allow us to work as a team throughout the duration of your project, from design development to project completion. R. Bibler Custom Builders has developed a team of qualified and proven professionals that will complete your project ***on time and within budget.*** Each professional that works on your project has proven to us their ability to meet the high standards we expect. You can rest assured that your project will be completed by some of the finest tradesmen in the Southwestern Michigan region.

Our Staff

Our employees are among the most experienced and talented professional in the area. All R. Bibler Custom Builders, Inc. senior carpenters are required to work towards gaining their Michigan Builders' License within the first two years of employment. It is our philosophy that employees should be given challenges to increase their ability to contribute to our industry. This is exactly why R. Bibler Custom Builders provides the necessary training materials and funds for state testing that allows our skilled carpenters to earn their Michigan Builders' License. This is just one example of individual growth and pride that drives our staff to achieve excellence in their field. The members of our staff are dedicated to delivering superior quality and value to our clients. From workmanship to customer interaction, you simply will not find more qualified and professional individuals. You will find that having our crew working on your project is truly an enjoyable experience.

Company Goals

Trust, Honesty, Communication and Respect

Our Company goals remain the same regardless of the project size. We take great care in making certain that our clients are informed and confident with each step of the project. We take the time to discuss areas that are important to. We work with our clients and our support team of architects, designers and suppliers to make certain that you get exactly what you want. We work very hard to earn your trust and to make your project an enjoyable experience.
